

## **CERVO Mountain Boutique Resort, Zermatt**

### **Winter**

At the CERVO Mountain Boutique Resort, the design achieves the balance between an alpine chalet, lodge, hunting lodge and just the right dose of the modern. The chalet style hotel impresses with contemporary design, the cosiness of a hunting lodge and a sensational view over the Matterhorn.

The train station and town centre can be reached conveniently by lift and a leisurely 10-minute walk.

CERVO is the only “ski in | ski out” resort in the town of Zermatt. Skiers can ski directly to the front door. You then take the lift down to the Sunnegga funicular railway's bottom station which takes you back to the ski slopes in 5 minutes.

The main chalet with reception, restaurants and bar | lounge is the vibrant heart of the resort. From here you can conveniently reach the 6 surrounding chalets where you can find 36 hotel rooms and suites. All chalets have a spa area.

The main building with the restaurants CERVO Puro and Ferdinand as well as the CERVO bar | lounge is a pleasant contrast to the quiet rooms and suites. At lunchtime, skiers can ski directly up to CERVO and enjoy a delicious meal on the sunny terrace. In the afternoon, you can meet up for a sophisticated CERVO après-ski. At night the CERVO Puro serves contemporary Alpine cuisine with Northern Italian influence. At the Ferdinand you may enjoy “cheesy” moments with Fondue, Raclette and table BBQ..
