

CERVO Mountain Boutique Resort, Zermatt

Summer

Summer

At the CERVO Mountain Boutique Resort, the design achieves the balance between an alpine chalet, lodge, hunting lodge and just the right dose of the modern. The chalet style hotel impresses with contemporary design, the cosiness of a hunting lodge and a sensational view over the Matterhorn.

The train station and town centre can be reached conveniently by lift and a leisurely 10-minute walk. The lift also connects you to the Sunnegga funicular railway's bottom station. You can also start your hike directly in front of the CERVO Mountain Boutique Resort on one of the trails.

The main chalet with reception, restaurant and bar | lounge is the heart of the resort. From here you can conveniently reach the 6 surrounding chalets where you can find the hotel rooms and suites. All chalets have a spa area.

In the main building, the heart of the resort, there are the restaurants CERVO Puro and Ferdinand as well as the CERVO bar | lounge. At lunchtime we serve delicious meals on the sun terrace with a great view on the Matterhorn. This is also the best spot to enjoy a pre dinner drink in the early evening, warmed by the last rays of sunshine of the day. At night the CERVO Puro serves contemporary Alpine cuisine with Northern Italian influence. At the Ferdinand you may enjoy "cheesy" moments with Fondue, Raclette and table BBQ..
