

Restaurant Ferdinand:

In December 2014 the CERVO Mountain Boutique Resort opened its new Restaurant Ferdinand. This opening marked the start of the CERVO`s 5th year jubilee which the Mountain Boutique resort has been celebrating throughout the winter season 2014/15.

The Ferdinand is another highlight next to the restaurant CERVO Puro with sunny terrace and cosy lounge

Raclette, Fondue and BBQ are its specialties. The selection of food might sound a little rustic, but if you are thinking of an old fashioned Swiss restaurant you are definitely wrong.

The Ferdinand is not only a culinary but an architectural highlight of the trendy resort as well, linking Alpine tradition and contemporary lifestyle. The Ferdinand is a mix of a cosy chalet and a New York Style Brasserie with a touch of Vintage.

The Ferdinand focuses on local and Swiss products such as cheese of the Valais region with the AOP label for Raclette and Fondue and high quality meat from organic farming. On top we serve a wide range of great wines of the Valais region only.

The Ferdinand is more than a simple restaurant. Fitted with an acoustical ceiling and audio equipment from Bose it has daily live music and concerts on a regular basis. This provides great entertainment for Après Ski guests at its perfect location at the end of the ski slope coming down from Rothorn / Sunnegga.

The Ferdinand can be booked exclusively for meetings and events. It has all the necessary equipment such as data projectors, screens and a reception desk.
